# Simon Désaulniers

#### Education

2019 Ph. D. in Computer Science (Quantum Cryptography), Université de Montréal Analysis of computation hypothesis resisting quantum computer for elaborating modern and secure cryptographic methods.

**N.B**: Was not completed in favor of pursuing a profesional career.

2016 - 2018Master's degree in Computer Science, Université du Québec à Montréal (UQÀM) Advanced operations over distributed hash tables and end-to-end secure group chat. See master thesis.

2010 - 2015Bachelor's degree in Computer Science, Université du Québec à Trois-Rivières (UQTR)

Bachelor's degree in Mathematics, Université du Québec à Trois-Rivières

#### Professional experience

June 2020 up to today

Senior developer, Solutions Mieux-Être Lifeworks:

Writing of analysis, development and maintenance of a complex software for handling determined service annuity regime.

- In charge of migrating the TFS centralized version control system to the Git distributed version control system;
- o Handling of DevOps concerns and in charge of training different teams on new tools and methods:
- Establishment of a new system and practices for handling project dependencies based on the Nuget package system;
- o Moedernization of development approaches (offensive programming, static tests, diverse debugging and development methods and exhaustive documentation).

May 2015 up to August 2017

Computer science researcher and programmer analyst, Savoir-faire Linux GNU/Ring development (# https://jami.net), an audio/video and chat communication software. Design and implementation of multiple solutions:

- distributed indexation over a distributed hash table (DHT);
- group chat communication protocol over a DHT;
- data pagination and persistence feature on OpenDHT;
- OpenDHT development and maintenance in general.

https://github.com/savoirfairelinux/opendht

Summer 2012 up to April 2015, Mathmematics and Computer Science research assistant, UQAM, UQTR Supervised by Alexandre Blondin Massé Ph. D. and Alain Goupil Ph. D. and Sébastien Gambs Ph. D..

August 2017 up to April 2019

- o Contribution to the elaboration of an end-to-end secure group chat protocol resisting cipher correlations in asynchronous context while keeping a light network load;
- o Design and implementation of polyominoes enumeration tools in order contribute to combinatorics research team's work;
- Marking of undergrads' homework and magisterial demonstrations in laboratories.

# https://bitbucket.org/ablondin/polyenum

Trainee in Software engineering, Johnston-Vermette Groupe Conseil, inc., Trois-Summer 2011 Rivières

Non-regression test scripts on Hydro-Québec Gentilly-2 nuclear plant computer systems.

#### **Publications**

#### 2017 Fully Distributed Indexing over a Distributed Hash Table

Simon Désaulniers et al. "Fully Distributed Indexing over a Distributed Hash Table". In: Ubiquitous Networking. Ed. by Essaid Sabir et al. Cham: Springer International Publishing, 2017, pp. 308-318. isbn: 978-3-319-68179-5.

#### General abilities

Langues

French, Esperanto, English.

Personal attributes

Analytical skills; initiative; organised and rational; good communication skills; work well alone or as part of a team; flexible; can easily adapt to new situations.

#### Conferences and collaborative programs

QCrypt 2019 (Montréal) Conference on Quantum Cryptography and Post-Quantum Cryptography.

GoSec 2018 (Montréal) GoSec is an annual convention which brings together several experts in the IT security field, from both the private and public sector.

UNet 2017 (Casa Blanca, Maroc) Third Symposium on Ubiquitous Networking. Presentation of a scientific paper.

GSoC 2016 (Montréal) Participating in Google Summer of Code for the Debian project. Contribution to efforts aiming at the design of a solution to divers DHT optimizations for the OpenDHT project.

Debconf 2016 (Cape Town, South Africa) Annual conference of the Debian project. Presenting 

### Personnal projects and relevant contributions

Writing and maintenance of packages in addition to various contributions to documentation and bug tracking.

dpaste Pastebin over a DHT. Support for encryption through a public key encryption scheme (PGP) or a secret key encryption scheme.

qurlshare Qutebrowser extension for URL sharing between multiple machines over a DHT.

 amh AwesomeWM window manager extension for launching programs simultaneously on multiple computers.

yauml YAML formatted UML diagram translation to Graphviz compatible input file, notably enabling generation of PDF files.

Audio/video file splitting tool.

#### Particular knowledge

Cryptography, security analysis, end-to-end encryption, communication protocol, algo-Concepts rithm optimization, distributed hash tables, blockchain, byzantine generals problem, free software.

C/C++, Python, Haskell, Java, C#, Lua, Bash, PowerShell, LATEX, Vimscript, BRE, Computer ERE, PCRE, HTML, CSS, PHP/SQL, Javascript. languages

GNU/Linux (Debian, Ubuntu, Archlinux), Android.

Vim, Git (et les services connexes comme GitHub, GitLab, Bitbucket, Azure DevOps), GCC, GNU Make, GNU Gdb, GNU Autotools, CMake, Setuptools (Python), GNU shell. Jenkins, Gerrit, Tuleap, Docker, Cabal (Haskell), «««< HEAD ====== MSBuild, Visual Studio, Nuget, Interface système GNU. »»»> 2c38fb1 (cv. acquis chez Solutions Mieux-Être Lifeworks)

Debian, Archlinux

Software and tools

## Hobbies

Cultural Language learning, book reading.

Sports Riding a bike, physical training, alpine skiing.

Artistic Music, guitar playing.

Divers interests Chess, video games, board games, television series, movies, various documentaries.
